Senatorial—Fred Holdsworth, Fred state increases materially, and these must be inspected. This mouters is reflected by the fellowing figures: When the survey was made by the bureau, covering 57 places throughout the state. County—W. H. Casey, William J. Lerd, State, they were, then estimated to have state, they were the surface of vacationist, remained only two weeks, the turnover was high and the total than the mouth of the state increase materially, and these must be inspected. This mouthers were set were stated to have state, they were the estimated to have state, they were the state forces as the call the mouthers with the state increase is reflected by the fellowing figures.

Town countries and the surface must be inspected. This mouthers were set as a fellowing figures.

must be between 25,000 and 40,000, Mr. Jackson estimated. This survey, Mr. Jackson pointed out, was made only by one sanitary engineer, working continuously and doing nothing ply is found to be not what it should be.

COMMUNICABLE DISEASES REPORTED LAST WEEK During the week ending August 26th, ne case of typhoid fever was reported from the town of Nerwich according to the weekly morpidity report, just issued by the state department of health. This is the only communicable disease report-ed from this town for the week. Communicable diseases reported from towns in Eastern Connecticut during the week were as follows:
Diphtheria—Preston, 5, Stonington 2,
Plainfield 2, Thompson 1.

Measles-None Scarlet Tever-Ledyard 1, Plainfield 1, Putnam 1.

Whooping cough-Groton 1, Windham Typhoid fever-Norwich 1: Certain health officers have made a careful investigation of the manner in which drug stores handle their stock of biological products, consisting of vaccines, sera, and antitoxins. From time to time a drug store is found that careful them and officers at room temperature. ries these products at room tempera-

Certain physicians have refused purchase from the drug stores that handle biological products at room temblological products kept at room tem-perature diminish considerably in po-tency, and that this loss is prevented by keeping the products at a temperature around 40 degrees F., such as in a re-frigerator or other feed chamber.

TO ERECT BARBACKS

FOR STORES STUDENTS Student enrollment at the Connecticut Agricultural college at Storra for the coming year has reached such proportions that college authorities are planning to erect one-story barracks to house the overflow from the college dormitories. overflow from the college dormitaries. These barracks will not be completed until the arrival of the school of agriculture students who enter in november for a two year course. They will probably be erected in the riar of Storra hall, one of the men's dormitories and will house the newest arrivals. They will be planned similarly to the array barracks and a statement of the complete array to the array to t barracks used at officers training camps during the war., Secretary G. S. Torrey stated that

already been accepted, and it is expected that before the college opens in Septem-

### The Health of The Throat

dictionary.

and then."

Wednesday Health Tall No. 7. by John C. Hinricha D. C. Ph. C.

The health of the threat is a great comfort to all of us, but to the singer it is a thing of first importance. Threat colds are a nuisance to any one, but to singers they are a bug-bear. Quite often those who are chronic sufferers are told they will always suffer until the tonsils are removed. It is rare indeed that an operation is necessary. In nineteen cases out of every twenty where an operation is advised the chiropractor finds it unnecessary.

The threat condition is as de-

The throat condition is as de-pendent on spinal nerves as any part of the body. When there is a chronic condition of throat trouble the cause is invariably found to be in the pinching of spinal nerves, and this condition is readily cor-rected by chiropractic spinal addustments.

CONCERT SINGER

FINDS REMEDY "There is no profession where perfect health is so essential as that of the singer. To be in the pink of condition every singer knows that it is necessary to be rid of that bug-bear of all singers "colds." Any HEALTH FOLLOWS in the larynz account pharynx or head magnetis is so easily rem-edied by the the

skilled doctor of chiropractic that if all singers could have experienced the raprienced the rap i d relief which I have, the chirapractors would have more than they could do. My advice to singers is to put yourself in the hands of the county of th

a competent chiropractor and for-get your troubles." — Katherine Noack Fique, in "The Chiropractic News," which calls attention to the as a concert singer. AN APPOINTMENT
